MEDBRIC

Utrulling av KI i alle norske helseforetak

NOKIOS 2026 • Jon Espen Ingvaldsen

MEDBRIC

Originating from a research collaboration between NTNU and UiO.

2023

Built on results from a PhD at Antibiotikasenteret, UiO.

2024

Clinical prototypes tested. 400 GPs participated and provided valuable feedback. Medbric founded in September.

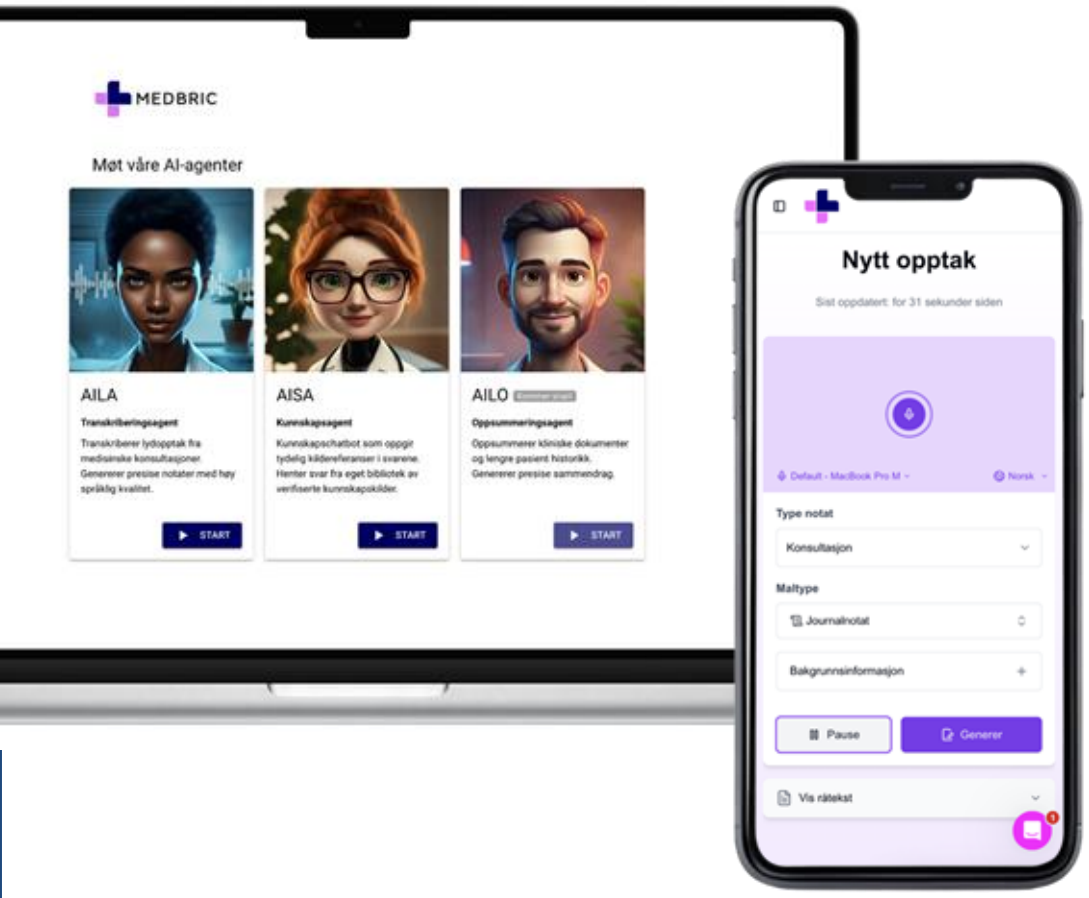

2025

Broad rollout in primary and specialist care. Profitable operations (AA rating). Large pilot projects with two health regions in Norway.

2026

Ranked #1 in tenders by the Norwegian regional health authorities and the Danish Medical Association.

Industrial partner in NorwAI — developing Norwegian health language models.

MEDBRIC

AI-agenter til helsetjenesten
